

## **An Overview of Undergraduate Statistics Degree in Latin American**

Lúcia Pereira Barroso\*  
USP, São Paulo, Brasil– lbarroso@ime.usp.br

Although the demand for statisticians is high, not all countries have Bachelor Degree in Statistics and the professional who operates in this area does not have this specific training since undergraduate studies. This study aims to show the status of education in undergraduate-level Statistics in Latin America showing an overview of the Bachelor Degree in Statistics in the main countries of Latin American.
